Seminar session on electrons and holes in lattices

Wednesday, July 11, 2018: 12:15-13:15h s
Seminar hall of Department of Applied Physics I.
ETSI Informática, Avda Reina Mercedes s/n, 41012-Sevilla, Spain

Revisited models for charge transport from Holstein and Davydov to SSH.
Dr. Sc. Yuriy A. Kosevich, Semenov Institute of Chemical Physics of the Russian Academy of Sciences, Moscow, Russia

A model for charge transport in mica muscovite
Prof. Juan F.R. Archilla, Group of Nonlinear Physics of the University of Sevilla

Funded by: VI Plan Propio de Investigación y Transferencia - Universidad de Sevilla
