

Frequency-momentum representation of moving breathers in a two dimensional hexagonal lattice

Juan FR Archilla, Universidad de Sevilla, Spain

Janis Bajars, University of Latvia, Latvia

Yusuke Doi, Osaka University, Japan

Masayuki Kimura, Kyoto University, Japan

Masayuki Sato, Kanazawa University, Japan

Mike Russell, Huddersfield University, UK

J. Chris Eilbeck, Heriot-Watt University, UK

LCM 2021: Localization in Condensed Matter,
November 17-18, 2021. CMD 29 online series.

European Physical Society
Condensed Matter Division
