

2009 REME Workshop and Third Young Scientist Meeting on Metamaterials (YSMM'09)

IMPORTANT DATES

Submission Deadline

18th May 2009

Notification of Acceptance

25th May 2009

Registration

1st June 2009

REME Workshop

6th July 2009

YSMM'09

7th-8th July 2009

REME WORKSHOP COMMITTEE

D. Segovia-Vargas

F. Medina

F. Martín

YSMM'09 COMMITTEE

General Chairs

O. Quevedo-Teruel

F.J. Herraiz-Martínez

Local Committee

B. Andrés-García

E. Ugarte-Muñoz

O. García-Pérez

D. García-Doñoro

L. Inclán-Sánchez

D. Segovia-Vargas

E. Rajo-Iglesias

The Third Young Scientist Meeting on Metamaterials (YSMM'09) in conjunction with the 2009 REME (Spanish Network of Metamaterials) International Workshop will be held on 6th-8th July 2009 in Leganés (Madrid, Spain). These days will allow to share the results of the young scientific community working on metamaterials. Moreover, they will have the possibility of learning through some experts, who will show the recent advances and trends in the 2009 REME International Workshop on Metamaterials. Both events will be held at Carlos III University of Madrid in Leganés.

2009 REME WORKSHOP

The 2009 REME (Spanish Network of Metamaterials) International Workshop will be held on 6th July 2009. This single-day workshop will include plenary sessions given by world-renown metamaterial researchers who will review the state-of-the-art and discuss the latest advancements in their respective areas ranging from electromagnetic metamaterials, microwave and antenna applications, optical metamaterials and their applications. The confirmed speakers are: R. Ziolkowski (The University of Arizona), S. Hrabar (University of Zagreb), F. Martín (Universitat Autònoma de Barcelona), R. Gonzalo (Universidad Pública de Navarra), J. Represa (Universidad de Valladolid) and A. Martínez (Universidad Politécnica de Valencia).

YSMM'09

The Third Young Scientist Meeting on Metamaterials (YSMM'09) will be held in Leganés on 7th-8th July 2009, following the successful previous editions held in Seville (2006) and Barcelona (2008). YSMM is a forum for discussion between young scientists working on metamaterials that pretends to encounter their interests and promote their implication in this innovative research field.

Topics of interest: Theory of metamaterials, antenna applications, new microwave and optical devices based on metamaterials, THz and optical metamaterials, propagation in metamaterials, numerical approximations of metamaterials and experimental results in metamaterials. The topics are not limited to this list. Related works can be accepted.

Abstract submissions: Abstracts and oral presentations will be in English. The length of the abstract should be 2 pages (including affiliations, figures and references) following the format provided in the Meeting website: <http://ysmm09.tsc.uc3m.es>. Abstracts should be submitted by uploading a PDF file to the same website. The deadline for the paper submissions is **18th May 2009**. The abstracts of participants will be published in the Meeting book if, at least, one author is registered for the Meeting by **1st June 2009**.
